

# The Beauty of Real Wood With Zero Worries.

Introducing the only green decking material made using 100% recycled carpet fiber. NyloDeck has a natural looking texture, color-thru core, and is UV protected... NyloDeck is lighter weight and easier to handle than wood-based and other composite decking. Superior strength and durability makes it a natural solution for marine, residential, commercial, and park applications.

- Zero Wood • Zero Moisture • Zero Mold • Zero Rot • Zero Termites • Zero VOC Resins
- Zero Worries with a 25 year limited warranty • Can Span 24" • Contributes to LEED points

*Creating decks  
from post-consumer carpet fiber.*

**NyloDeck®**

*No Wood. No PVC. No Worries.*
