

FOR IMMEDIATE RELEASE

NyloDeck Featured on Eight Decks at the Show of all Shows!

Photo Courtesy of Palm Harbor Homes

Covington GA, (January, 2012) Nyloboard is headed to the prestigious NAHB International Builder's Show in Orlando, FL, February 8th -11th. NyloDeck will be featured in Professional Builder's Show Village, which features three distinct model homes. Visitors to the Show Village can see NyloDeck up close and in person on one of those homes, the Infill Duplex, which caters to the tastes of the urban and dense-suburban buyer.

"We are glad to have NyloDeck represented on the Infill Duplex model, this allows visitors to touch, test, and talk to our team. And also, most importantly see the NyloDeck 'difference' installed on all eight of the decks." says Doug Morse, President & COO of Nyloboard.

NyloDeck is the only decking on the market made using 100% recycled carpet fibers and is the cutting edge of offering a new generation deck product and a superior alternative to Wood Plastic Composites (WPCs) and PVCs. Additionally, the company's mission is to be the market champion in customer value and satisfaction.

###

About Professional Builder's Show Village:

In its 13th year at the NAHB International Builders' Show, Professional Builder will host the Show Village on the back parking lot of the Orange County Convention Center. Professional Builder has created the ultimate venue for manufacturers to present their products to the building industry. There will be block parties, live music, cold drinks and prizes nightly.

About Nyloboard:

Nyloboard is a manufacturer of composite products that contain no wood, PVC, or VOCs. Using an exclusive, patented manufacturing technology that utilizes only 100 percent recycled, postconsumer carpet fibers and VOC-free bonding resin. One of Nyloboard's key goals is to help stop the waste stream of carpet fiber that currently contributes billions of pounds of non-reclaimable waste to landfills each year and use it to create superior products. Nyloboard also takes pride in manufacturing green building products that are not only sustainable, but also impervious to moisture, rot, termites, mold and mildew. Nyloboard's manufacturing facility is located in Covington, Georgia, just outside of Atlanta.
